

INNOVATIVE PRODUCTS  
DESIGNED BY RELIABILITY EXPERTS

5010  
made of  
galvanized steel

-  Design service
-  Thread protection (optional)
-  Push/pull tensioning system
-  CNC machined top and bottom surfaces
-  Permanent replacement part
-  Material and surface finish options

**Merckell** offers the engineering, drawing and manufacturing of custom double adjusting motor bases of all formats and motor driven assemblies of all kind.

Depending on the available timeframe, its custom motor bases are either bended assemblies or completely

mechanically welded. The upper and lower surfaces are CNC-machined to remove the angular support leg and guarantee a high-quality product.

**Merckell** offers a variety of options: type of steel, coating, color and thread protection.
